SUMMARY

Machine learning student who built scalable data pipelines and deployed models.

SKILLS

Python, PyTorch, SQL, PostgreSQL, Machine Learning, Git, Docker, FastAPI

EDUCATION

B.Tech in Computer Science, Northfield Institute of Technology, 2026

PROJECTS

Recommender System for Course Feedback (Jan 2025 - May 2025)

- Developed a PyTorch recommender that improved retrieval accuracy by 18%.
- Built data pipelines processing 250k rows with automated data quality checks.
- Deployed with Docker and FastAPI serving 500 daily users.

EXPERIENCE

Machine Learning Intern, Prista Analytics (Jun 2025 - Oct 2025)

- Analyzed customer datasets in PostgreSQL and reduced query latency by 30%.
- Automated weekly reports in Python, saving 6 hours per week.

CERTIFICATIONS

AWS Cloud Practitioner
